

Greetings from JIPMER

We are pleased to announce that Department of Microbiology along with the HICC JIPMER will conduct the '2nd National Workshop on Hospital Infection Control' between 29th January to 2nd February 2018 in JIPMER Pondicherry, India. The target group will be faculty and residents of Microbiology from different parts of the country.

This workshop aims at training the clinical microbiologists across the country on various aspects of hospital infection control which range from bench side discussion such as air, surface and water surveillance, MDROs screening for HCWs, endoscopy reprocessing, disinfectant testing, endotoxin testing to bedside case discussion which includes AMSP audit round, Bundle care audit round and HAI Surveillance.

The number of participants selected for the workshop will be limited to 50 which include 25 faculty and 25 residents. Applicants working in infection control area will be given priority. Credit hours will be awarded.

Applications Should be sent ONLY through google form at the link below :
